- ☐ Please check if any of the above information has changed since previous year.

II. MINING AND RECLAMATION

1. Was the mine active during the past year? Yes ☒ No ☐

2. If active, how much ore or mineral was mined? Approx 20 tons

3. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, volume of material moved, and the acreage affected.

Four separate areas of five yards wide by fifty yards long or less were opened by dozer and track hoe.  
Anywhere from five to 20 feet of overburden was remove  
from above those areas. Total before reclamation is  
under one acre. Once the areas are leveled and reshaped  
it could be around two arces or slightly less.

4. Briefly describe the reclamation work performed during the past year. This description should include acreage reclaimed, methods employed, and an evaluation of the results.

In ML 41355 all areas were back filled and leveled.  
In ML 19890 leveling was started but because of adverse  
weather it has been suspended till such time as weather  
allows us to start again. Usually early spring at the  
latest. At that time both areas will be reseaded.

5. What was the total unreclaimed acreage at years end? less than 1 acre

6. Briefly summarize mining and reclamation planned for the upcoming year.

Not known at this time with the exception of an area in  
~~ML 41355 of about 10 yds wide by 20 yards long that we~~  
~~have already been working on over the past three years~~  
~~cutting it down alittle at a time.~~
